Dear General Sarfaraz,

### **Investment Climate and Potential for FDI**

Thank you for giving us an opportunity on 23<sup>rd</sup> April to outline the scope for transforming the investment climate in Pakistan, suggest the criteria for desirable FDI and identify potential for Saudi/GCC investment in the private sector. I attach the matters discussed and look forward to a continuing engagement as we progress on addressing the issues discussed.

We have started the process of eliciting interest from our members and will shortly share several projects for discussion with Saudi investors.

Thank you gain for your valuable time.

Yours sincerely,

Ehsan Malik
